## Art.1 Brief description

NMBS sells 4 tank wagons, with the following references:

- 80 88 7860 0341 – expiration date from last maintenance : 24/12/2018
- 80 88 7860 0143 – expiration date from last maintenance : 23/05/2021
- 80 88 7860 0085 – expiration date from last maintenance : 19/11/2021
- 80 88 7860 0127 – expiration date from last maintenance : 13/12/2021

That material is currently parked at the premises of the workshop of Gentbrugge. To be able to organise the transport, the machines could be moved to a place agreed between the parties (for instance, Langerbrugge).

A full cleaning of the tank is foreseen so that a certificate can be established. The material has to be collected per truck and this 10 days maximum after the date of the cleaning.

The material is sold as is. NMBS cannot guarantee the weight mentioned on the technical data sheet.

## Art.2 Offer

We kindly ask you to remit your offer according to the enclosed submission form.

In order to estimate your best price, and the terms of transport, it is mandatory to come and inspect the machine on site.

Your offer must reach us on the 16<sup>th</sup> of October 2018 at 16h00 AT THE LATEST. Please send your offer to [quote.materials@b-rail.be](mailto:quote.materials@b-rail.be). Offers which reach us after this date will not be accepted.

## Art.3 Visitation – from the 08<sup>th</sup> of October

To visit the locomotive, please contact the person in charge of the rolling stock at the workshop:

Address: Brusselsesteenweg 602 - 9050 Gentbrugge

Contact: Jean-Pierre Van den Bossche, 0492/914064 or 09/2413901, [jean-pierre.vandenbossche@b-rail.be](mailto:jean-pierre.vandenbossche@b-rail.be)

The safety shoes and yellow jacket are mandatory in all our workshops. Depending on the place you go, it is possible that you would be asked to wear safety glasses or hat as well. Thank you to verify this with the persons on the site.

## Art.4 Collection

The material has to be moved by truck. The transport and, if needed, the loading on a truck are fully at the charge of the buyer.

It is the responsibility of the buyer to inform his transporter about the terms of collection, this to avoid every discussion.

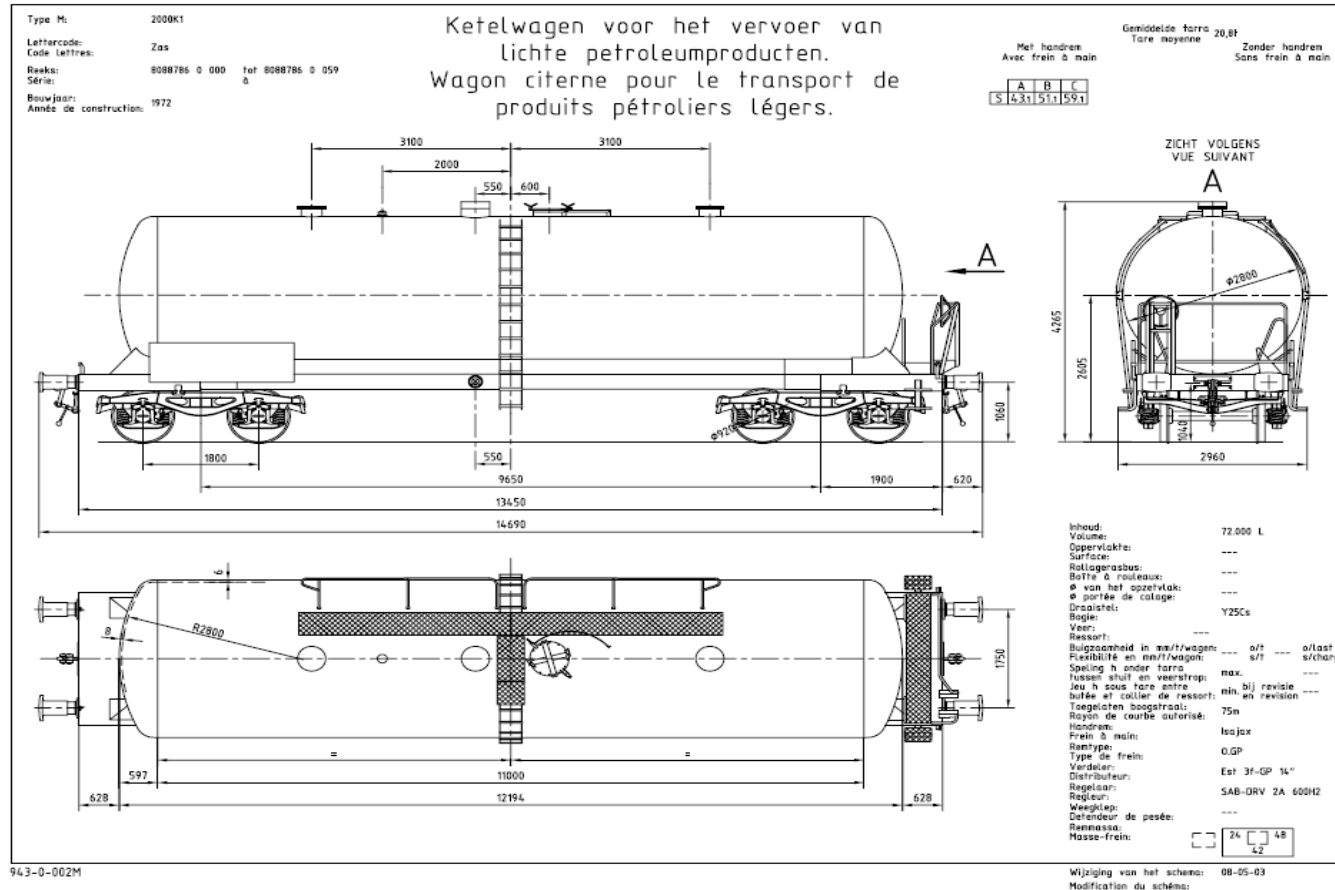

The collection of the material has to take place within 10 days after the date of the cleaning.

In case the material is not purchased for re-use but as valuable waste, it is formally forbidden to disassemble it on site, except for rare exceptions to be determined in advance and in writing with the workshop. The purchaser is also required to provide to the workshop a certificate of destination of the waste.

For the planning of the collection of the material, please contact the persons in charge of the rolling stock at the workshop who are mentioned on the Art.3 of the present document, and this, as soon as possible after assignment of the material.

The safety and environmental rules in place in all the installations are to be respected scrupulously.
